THE '66 CARDINAL

Cissna Park Community Unit District No. 6

With eighteen years behind us, we realize that our parents have long been an indispensable foundation. Now we will no longer have Mom and Dad to fall back on quite like we've been used to. Although they'll still be there, we must assume a more complete responsibility for what we are from now on.

Bearing this thought in mind, we, the Senior Class of 1966, dedicate this Cardinal to each one of our parents.

From their example we hope to mold our lives----------lives they will be proud of.

Foreword

This Cardinal has been created that you may hold on to the atmosphere of life as it was during the '65-'66 school year. Though you are often told "these high school days are the best of your life", you must look forward to the future, too. And in these coming years, you have only to open this book--- ------- for memories.

The World

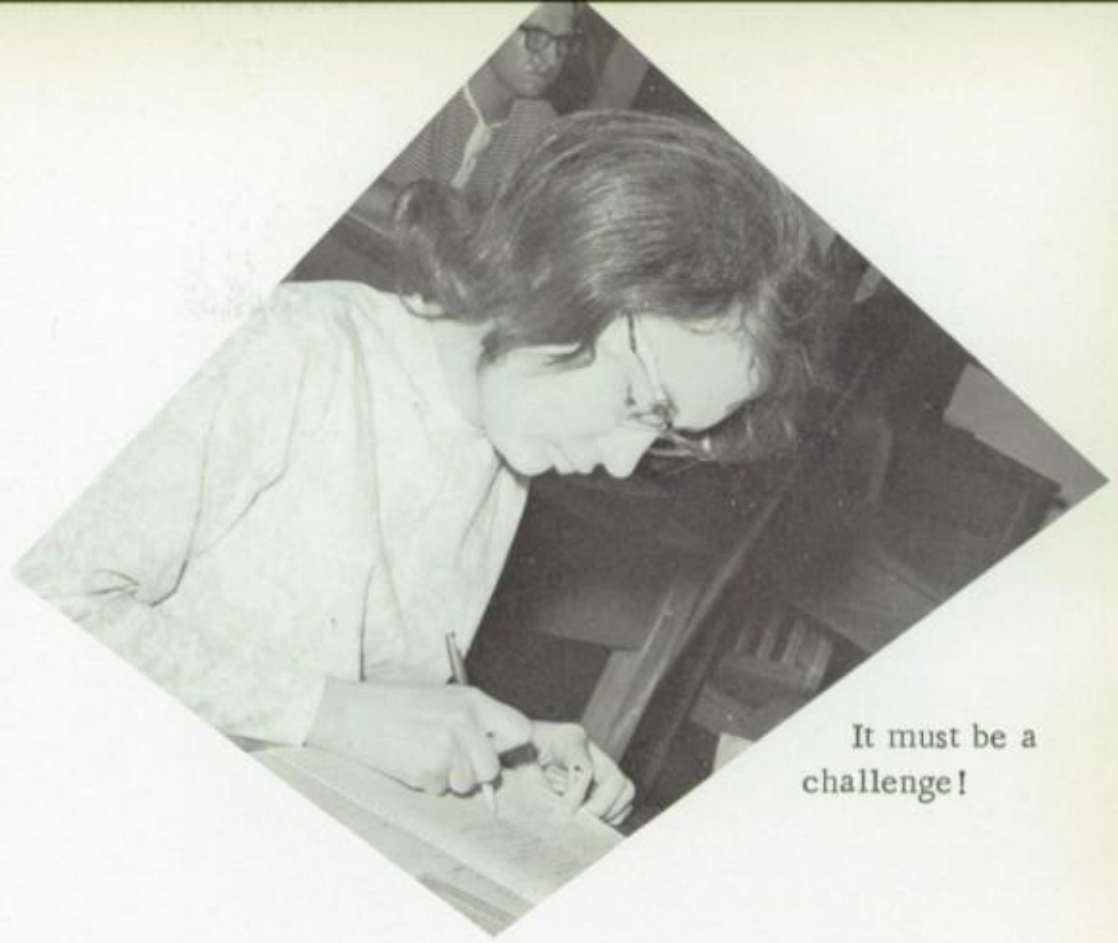
That's where my great, great, great, great, great, granddaddy was born.

Take a left turn here and then. . . . . .

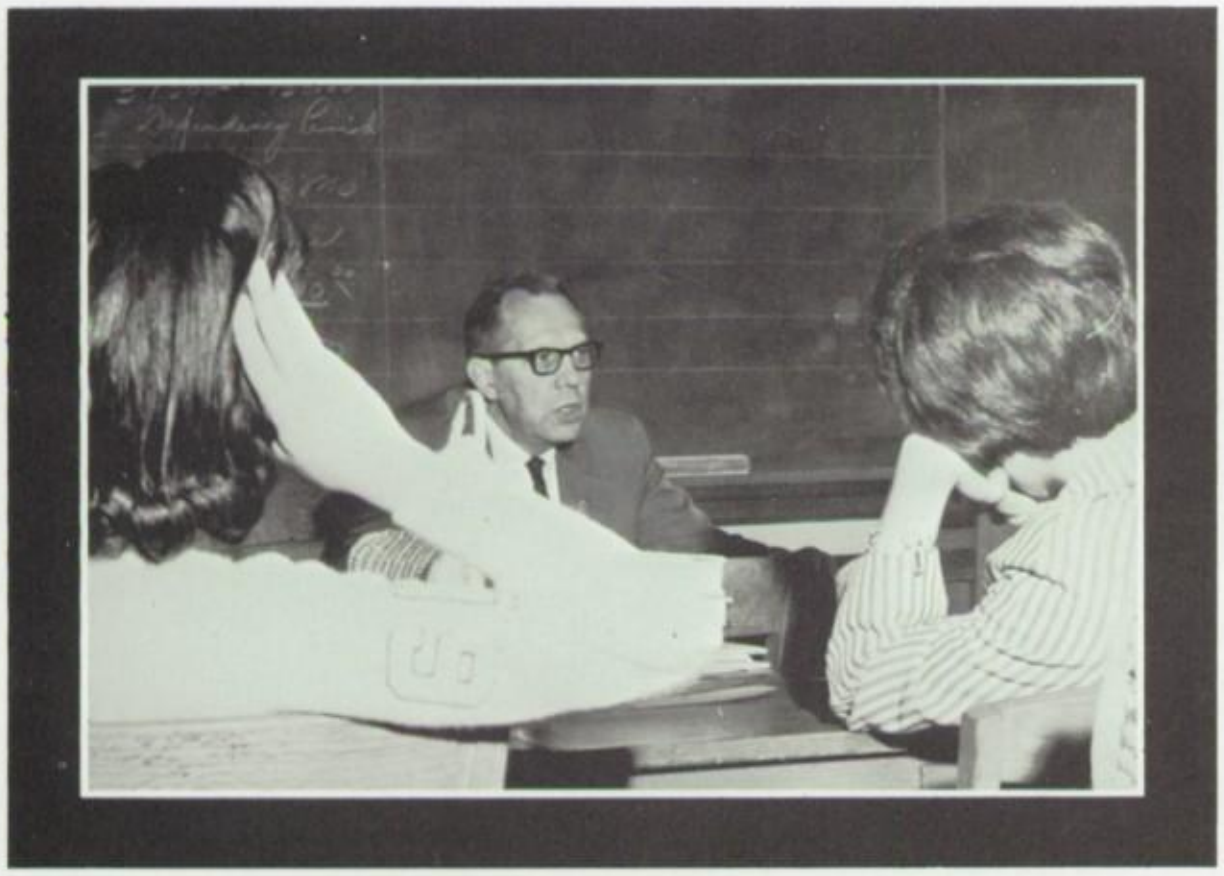
History is a unique subject in that there are many projects such as scrap books, oral reports, panel discussions, and listening to historical records which give an opportunity for everyone to participate.

At Your Fingertips

Panel discussions were a familiar sight in U. S. history class.



It must be a challenge!



Mr. Cluver told another great joke.

Secretary and Businessman of Tomorrow

The commercial subjects are continually challenging the minds of the students. He learns all the basic theory of shorthand, typing, bookkeeping and office practice. The primary aim of each course is the building of a usable skill.

Concentration.

In December the Senior girls took a test in competition for the Betty Crocker Award. Sharon Chandler was the recipient of this award.

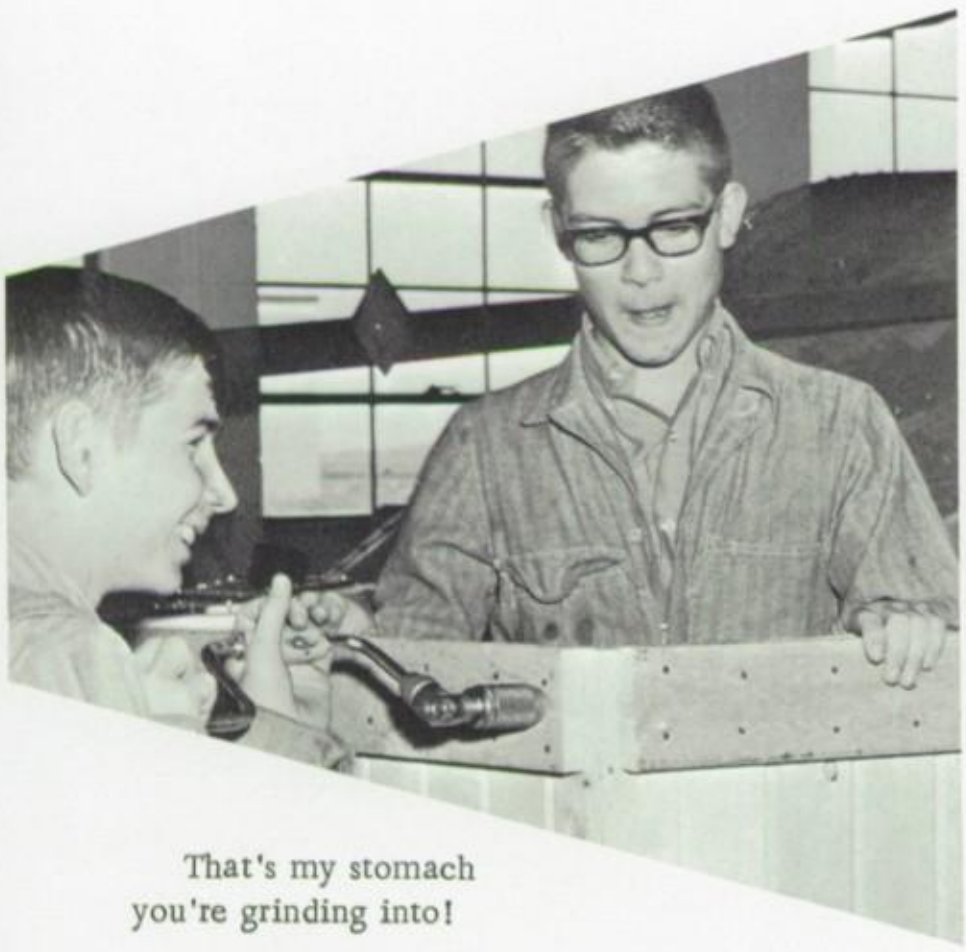
Learn Today What You'll Need for Tomorrow!

Did you ever wonder where Elmer eats his lunch?

Miss Catherine Legacy, a student teacher from Illinois State University, assisted the Home Ec. Department for nine weeks this year. We hope she enjoyed helping us as much as we enjoyed her.

The Agricultural program, piloted by the University of Illinois, expanded several years ago, providing us with six classes in which the aim is to learn through experience. This enables the student to enroll in the course which will be most valuable to him in the future.

There's a germ!



That's my stomach

Skills Are Developed in P.E. and Drivers Ed

Contrary to what the picture suggests, Driver Education is not marred by accidents. The students are taught the rules of the road and the proper operation of the car through the patient guidance of the teacher.

Would You Believe . . .

----Mr. Leden was responsible.

---Ray is afraid to come down.

---An apple on Miss Jenkins head.

Two new skills were added for the students this year. They learned the art of archery and developed the muscles to climb the peg board. They both seemed to become a challenge to each and everyone.

Our Policy Makers

The core of any association is the main office, and CPHS proves to be no exception. And, although Mr. Watson is generally found in that office, we seem to have caught him in a more casual state. Our superintendent is evidently a connoisseur of sorts.

The school board could almost be called the mainstay of the school community. It is their purpose to set the standards of our school and to see that these same standards are maintained throughout the year.

Theirs is not a simple task; the pressures are great, and the rewards are limited, but our board, composed of six men and one woman, have done a commendable job in carrying out their duties.

School Employees

No--they're not part of the Dodge Rebellion, they are our ever efficient cooks, better known as Eunice Feller, Elsie Judy, Ernie Eisenman, and Twylla Beer.

And who could this young lady behind the desk, pushing a pencil, be. . . . . none other than Lorna Clauss, our office secretary.

Since ours is a rural community, the majority of CPHS students ride the school bus to and from school. Those who drive our yellow monsters are from left: Dean Yergler, Norman Carlson, Wilmer Kaufman, Louis Hurliman, Kenny McCray, Yvonne King, Ida Gudeman, and Curt Carlson.

Keeping the grounds in ship-shape condition is a part of custodian, Elmer Yergler's job, and he does a fine job in carrying out his duties.

Cardinal . . .

The average person can not realize the many responsibilities of an editor, especially a year-book editor. Wayne Peters, this year's Cardinal editor, appears to be pondering over some very perplexing material, which he no doubt received from our illustrious advertising manager.

Cardinal meetings can really put your mind to work!

No, Donna's not looking at the picture backwards. She's cropping it! (If you don't know what the word means, look it up in the dictionary).

Our stage was elaborately decorated with a painting and a cabin designed, and constructed by a few ingenious Junior boys.

Seniors Go East

When the Seniors go Eastern, they go Eastern! And in case any of you are wondering, that young gentleman with the cane in the foreground, is not a part of the group, only a part of the scenery.

The ferry trip to the Statue of Liberty was most entertaining; it gave some of us the chance to acquire that "wind swept" look and others among us an opportunity to pose "candidly" for Cardinal pics.

In Appreciation

This Senior Class won't forget Mr. Cluver, who has been a boon to our education and especially our Senior Trip. With endless witty remarks (and some "not so witty" remarks), he puts a spark of enthusiasm in the air for those who are around him.

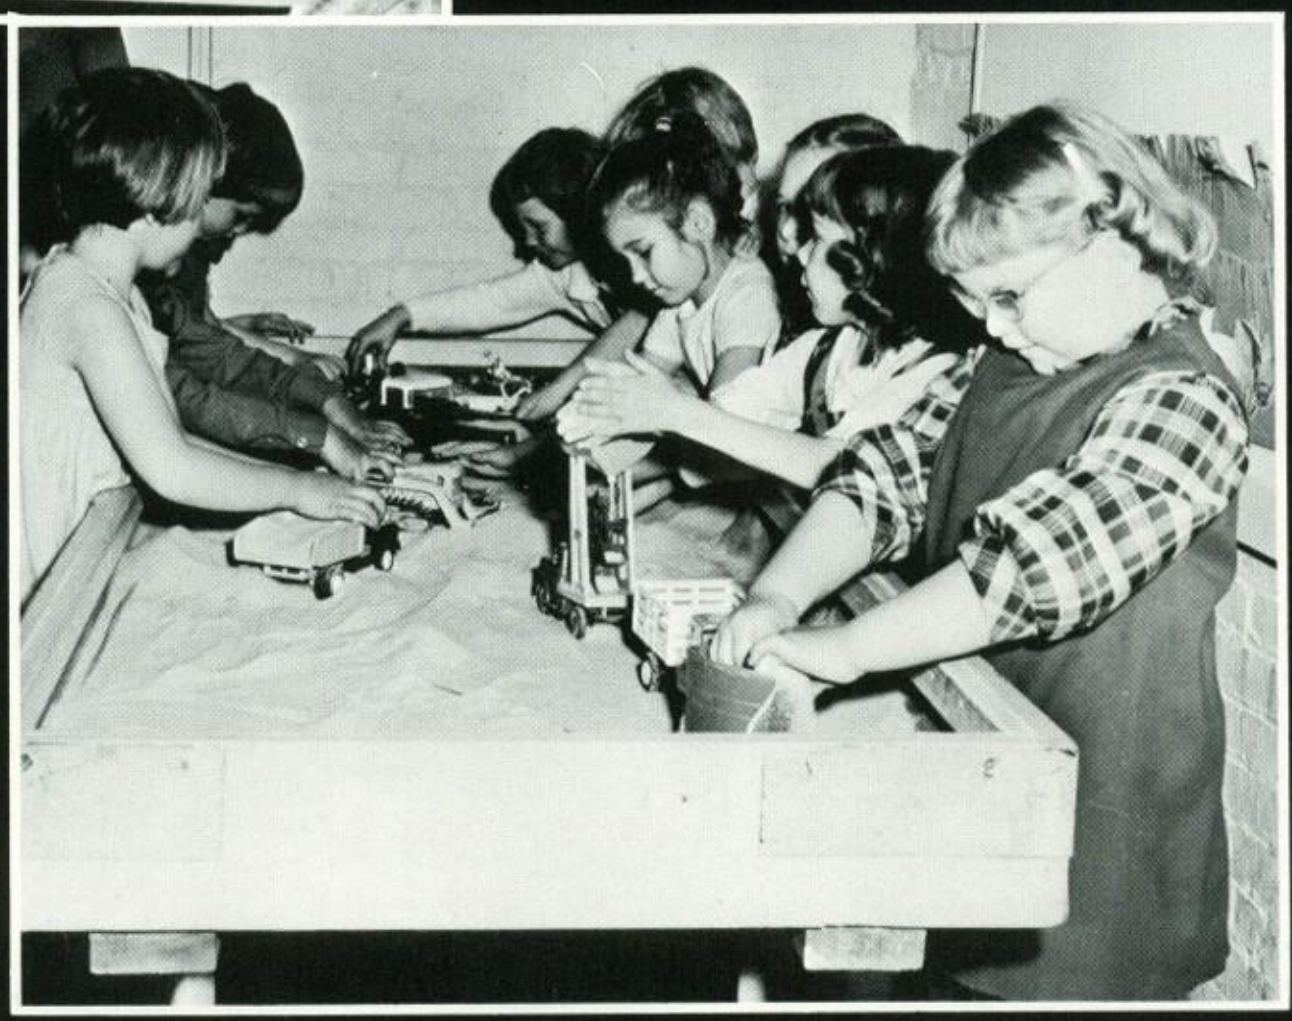
The Beginning . . .

. . . . .of our schooling career begins in the kindergarten, where Mrs. Martha Brenner teaches the youngsters the alphabet, numbers, and other basic first grade skills. Here, while some of the children are coloring, the others play in a sandbox especially constructed for them.

Following kindergarten, the students advance through the next eight grades that are shortened by years of fun-filled activities and suddenly find themselves in high school.

The pages ahead are a brief account of those years that fly so swiftly by.

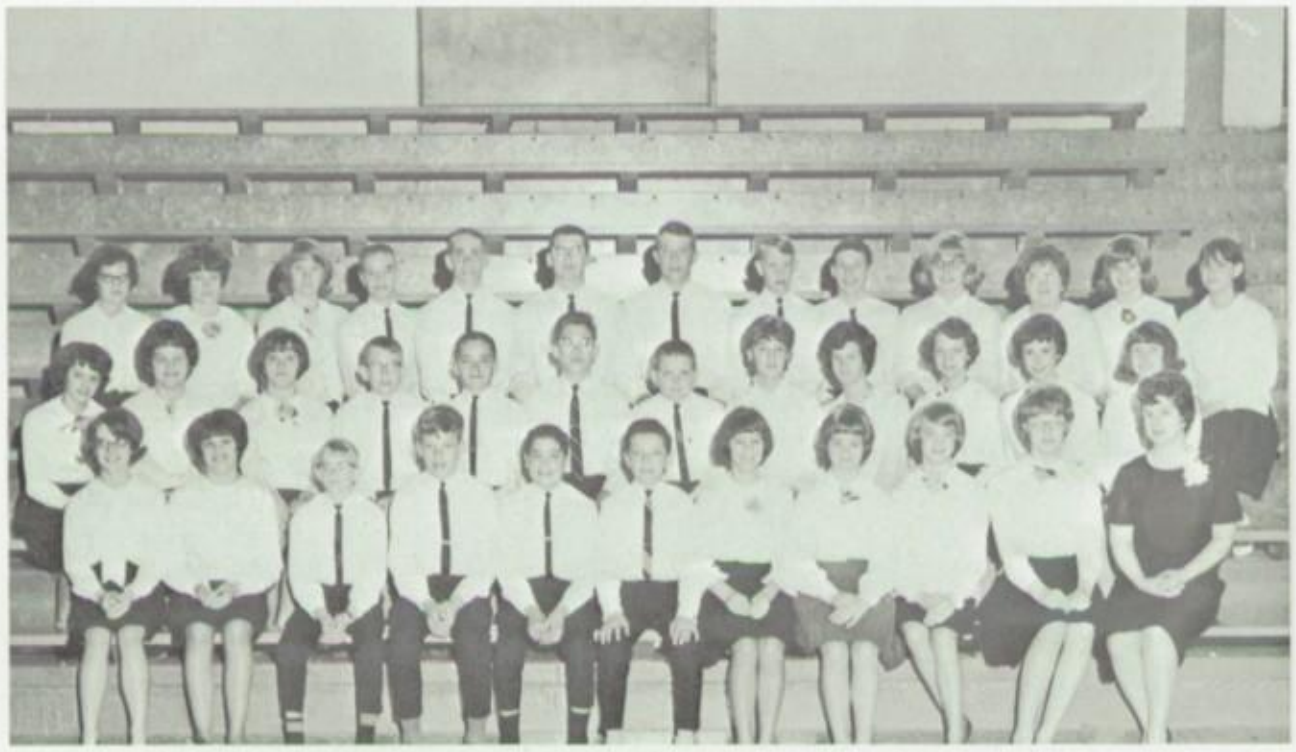


The Grades Swing!

"To Wish On a Star" was the theme for the eighth grade party.

The Christmas operetta, "Where Was Santa?", was a big success.

Contest Chorus



Mrs. Leden's select, all-state chorus won first place ratings at both district and state contests.

Speech Team

Ruthie Yergler was the basketball mascot.

This was the first year the grade school had representatives at the state contest.
